Core Capabilities

From ROBLOX game development to post-launch operations and UGC reward design — connected as one pipeline.

01 GAME DEVELOPMENT

Planning and development of in-house ROBLOX titles and brand/IP-based games

02 LIVE OPERATIONS

Ongoing updates, events, quests, and rankings after launch

03 UGC & REWARDS

Connecting Free/Limited UGC to gameplay and reward loops

BUILD → LAUNCH → OPERATE → IMPROVE

Plan & Build → Launch → Live Ops → Data-driven Improvement

UGC PRODUCTION

High-Quality UGC, Made In-House

Since 2024.06

HIGH QUALITY

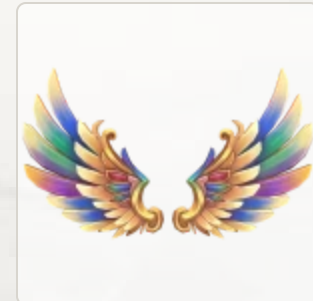

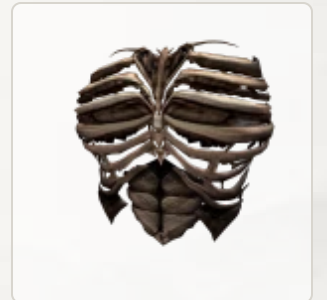

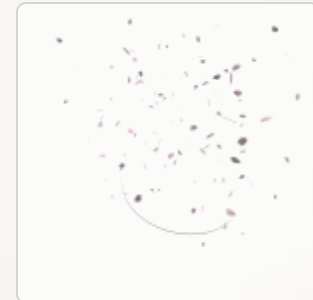

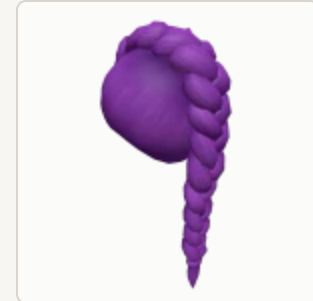

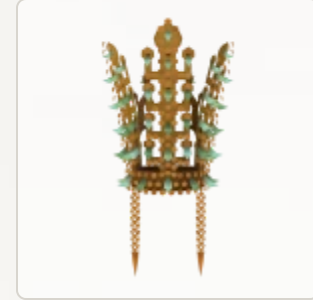

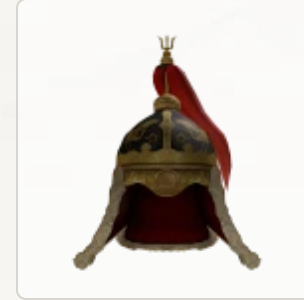

High-difficulty, high-quality UGC production

WIDE COVERAGE

Every body slot and material — animation included

IN-GAME SALES

A UGC sales pipeline wired into our games

LIVE GAMES

We develop and operate games across genres to study Roblox players' preferences and experiences.

TOWER FLOOD RACE

Multiplayer competition · Live operations

- A multiplayer race up a tower while escaping rising water
- Rank competition with Slap and item-based player interference
- Progression and replay loops driven by rewards and quests
- Continuous live ops built on seasons, rankings, and events

TOMATO SPLATTER SIMULATOR

Action-driven simulation combining punchy feedback with steady progression

- Satisfying hit feedback
- Continuous growth through resources and objects
- Action play where progression is immediately felt
- Simple controls paired with repeatable upgrade loops

Designing Free UGC as Part of the Game Loop

[FREE UGC] AFK OR ARCADE GAME

A casual arcade blending classic minigames with UGC collection

- Classic minigame play
- Town exploration and coin collection
- AFK-based idle coin earning
- Exchanging coins for Free UGC

FREE UGC RNG

A collection sim merging RNG rolls with UGC rewards

- Free-roll-driven RNG collection
- Merge-centered progression
- Acquiring Limited UGC with coins
- Event-driven rare reward collection

Post-Launch Operations

We treat post-launch operations as part of game development.

IN DEVELOPMENT

Games in Development

FREE UGC TOWN

- Explore a town built around a giant tower
- Earn coins through AFK, tower obby, and finding play to trade for UGC

FREE UGC TOWER

- A classic Roblox R6 tower obby
- Climb towers, earn points, and trade them for UGC

DUCKY RNG

- Roll dice to collect Duckies, then jump with them to clear obstacles
- More equipped Duckies boost speed and jump count

ENCHANTED WEAPON

- Defeat monsters to earn coins for weapons and spellbooks
- Successful +10 upgrades trade for actual UGC weapons

Games in Planning

HACKER VS SECURITY

- Compete as Hackers or Security
- Hack the opposing side's security systems

STAR REACH

- Repeat rocket launches through success and failure
- Reach Mars and establish humanity's next settlement

TOMATO SPLATTER 2

- An expansion of TOMATO SPLATTER SIMULATOR
- Diablo-style action RPG play with growth through gear options

LET'S BUILD THE NEXT ROBLOX GAME.

Game Development · Brand & IP · Live Operations · UGC

Backed by in-house development and live operations experience, Triple N Games builds ROBLOX games that keep growing alongside our partners.
